Description

Title: Registration error message dose not appear.

Predontitions: User need to enter email and password that is valid.

1.E-mail: [test@test.com](mailto:test@test.com)

2.Password: "d"

3.Repass: "d"

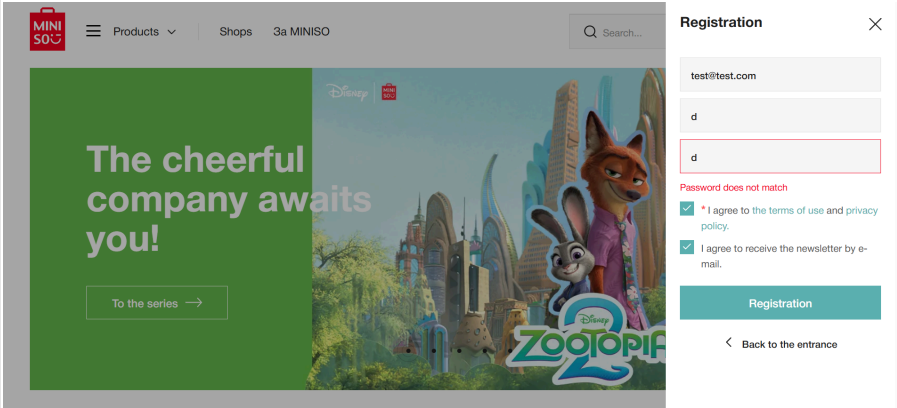

Steps to reproduce:

On E-mail field enter [test@test.com](mailto:test@test.com)

On Password field enter "d" and also on RePass field

Expected results: An error message for the Pass and RePass field to appear with text that says what a password need to have like special signs, upper and lower letters and etc.

Actual results: No error message for the password signs appear, instead appearar "Password does not match" when the password match it self.

The screenshot shows the MINISO website's registration page. On the left, there's a promotional banner for Disney Zootopia 2. On the right, a 'Registration' modal is open. It contains fields for email (test@test.com), password (d), and reconfirm password (d). A red error message 'Password does not match' is displayed below the password fields. There are checkboxes for agreeing to terms and privacy policy, and for receiving the newsletter. A 'Registration' button is at the bottom of the modal, along with a 'Back to the entrance' link.

**BUG TYPE → Functional**
